Warp Station Edo

One of the very few outdoor shooting spots in Japan perfect for historical dramas. The period setting covers a long timeline from Edo to Sengoku, to the Showa period. The "Middle age area" of the Sengoku and Edo periods has Otomon gates, Nagaya rowhouses, and historic lodgings; and the "Modern age area" brings the old towns and shopping districts of the Meiji, Taisho, and Showa periods to life. Numerous video works have been shot in the versatile shooting spots.

Cosplayers are welcome to take photos at the venue! Maybe you can also take a picture together with your favorite anime characters if they (the cosplayers) agree!
